Date: September 21, 2021
Re: Requirements for 7th Grade

Please note that the following information and immunizations are required for all students entering grade seven in September 2021:

- One booster dose of Tdap (a combination of tetanus and pertussis).
- One dose Meningococcal (MenACWY) vaccine.
- Report of an up to date **physical exam performed within 1 year.**
- Each year we try to give ample notice of state requirements since it may take several months to get a doctor's appointment. Please disregard this general reminder if you have already sent in an updated physical from this year.

NO STUDENT WILL BE ALLOWED TO STAY IN SCHOOL WITHOUT ALL OF THE ABOVE REQUIREMENTS.

Thank you for your cooperation.
